

## Features

### Autocall 24 VDC multi-tone multi-candela horn/strobes provide:

- Multi-candela xenon strobe with synchronized 1 Hz flash rate jumper selected as 15, 30, 75, 110, 135, or 185 cd
- Per appliance tone selection of: 520 Hz Horn, Broadband Horn, Bell, Chime, High/Low, Slow Whoop, or Siren; selected using an on-board DIP Switch (refer to [Specifications](#))
- 520 Hz tone is compliant with NFPA 72 Low Frequency Signal Requirements for Sleeping Areas
- Operation is selectable for SmartSync two-wire control or free-run operation
- Tone output level is selectable as high or low
- Diode polarized input for connection to reverse polarity, supervised Notification Appliance Circuits (NACs)
- Compatibility with ADA requirements; (refer to [Installation Reference](#))
- Electrical test point access without removing cover

### SmartSync two-wire control of audible and visible notification appliance provides:

- Control of Horn, Bell, and High/Low tones as Temporal Pattern, March Time pattern, or on continuously, controlled separately from visible appliances on the same circuit
- Control of Slow Whoop, Siren, and Chime tones as synchronized continuous signals when receiving SmartSync continuous commands
- SmartSync March Time pattern is selectable per appliance to produce 60 BPM or 20 BPM
- Visible appliances on the same SmartSync circuit operate at a synchronized 1 Hz flash rate
- Refer to [Synchronized Strobes](#) for SmartSync control list and additional operation information
- Strobe operation is listed to UL Standard 1971 and ULC Standard S526
- Horn operation is listed to UL Standard 464 and ULC Standard S525

### Mechanical design features include:

- Rugged, high impact, flame retardant thermoplastic housing in red with white letters or white with red letters, with clear lens, available with FIRE, FEU, ALERT, FEU/FIRE, or blank lettering
- Separate covers are available to change application type on-site or for replacement; covers can be easily removed without disturbing the connected housing and avoiding trouble conditions
- A separate mounting plate allows wiring to be completed before appliance is mounted; use with single gang, double gang, or 4-inch square box, flush or surface mount
- In/out wiring terminals for 18 AWG to 12 AWG
- Optional mounting adapters are available to cover surface mounted electrical boxes and to adapt to Autocall, 2975-9145 boxes

**Figure 1: TrueAlert Multi-Tone A/Vs are Available in Red with White Lettering and White with Red Lettering**

## Description

### TrueAlert non-addressable multi-tone multi-candela horn/strobes

provide a flexible selection of output tones and strobe intensity for fire alarm audible notification. Tone selection, output level, and strobe intensity is set per appliance, allowing notification needs to be tailored to specific area requirements. (Refer to [Specifications](#).)

### Local Tone Selection.

DIP Switch selection determines the local tone choice. A separate DIP Switch position allows selection of a standard or a high output sound level, selectable appropriate to the location. (See [Specifications](#).)

### Canadian two-stage alarm applications.

A DIP Switch selection per appliance allows the SmartSync March Time pattern input to be produced as 60 BPM or 20 BPM. The 20 BPM rate is typically required for Canadian two-stage alarm applications as the pre-signal, followed by the Temporal Pattern. Two-stage alarm operation requires a 4010, 4010ES, 4100ES, or 4100U as the control panel.

Two-stage alarm operation requires a 4010ES, 4100ES, or 4007ES as the control panel. See Table 7 for functional limitations by tone type.

### Flexible mounting.

Multi-tone horn/strobes can be semi-flush or surface mounted on a standard single gang, double gang, or 4" square (102 mm) electrical box. Optional accessories are available to increase mounting and application flexibility.

## Strobe Application Selection

Proper selection of visible notification is dependent on occupancy, location, local codes, and proper applications of: *the National Fire Alarm Code* (NFPA 72), ANSI A117.1; the appropriate model building code: BOCA, ICBO, or SBCCI; and the application guidelines of the Americans with Disabilities Act (ADA).

## Synchronized Strobes

**Multiple Strobes.** When multiple strobes and their reflections can be seen from one location, synchronized flashes reduce the probability of photo-sensitive reactions as well as the annoyance and possible distraction of random flashing. The multi-candela strobes of these multi-tone horn/strobes are synchronized by the controlling SmartSync operation NAC.

### SmartSync Two-Wire Control

SmartSync operation mode allows a two-wire circuit to provide the ability to activate both the multi-tone horn and strobe on the same NAC and then allow the multi-tone horn to be silenced while the strobe remains flashing. The multi-tone horn operates as "on-until-silenced" while the strobe operation is "on-until-reset."

### SmartSync Control Sources

- 4007ES Hybrid, 4010ES, 4100ES Fire Alarm Control Panels (refer to individual product data sheets for more information)
- 4009 IDNet NAC Extender (refer to data sheet *AC4009-0002*)
- SmartSync Control Module (SCM) A4905-9938 (refer to data sheet *AC4905-0003*)

**Additional SmartSync** compatible notification appliances include separate multi-tone horns and combination multi-tone horn/strobe notification appliances.

## Product Selection

**Table 1: Multi-Tone Multi-Candela Horn/Strobes**

SKU	Cover Color	Wording	Description	Dimensions with Cover
A49CMTV-APPLW	Select cover and mounting plate separately			

**Table 2: Separate Mounting Plate (Required when ordering model 49CMTV-APPLW(-BA))**

SKU	Color	Description
A49CMP-MTWR	Red	Mounting plate, select color to match cover
A49CMP-MTWW	White	

**Note:** -BA indicates model is available either with or without the -BA suffix. Model numbers ending in -BA, APPLW models, and separate mounting plates are assembled in the USA.

**Table 3: Separate Covers (Required when ordering model 49CMTV-APPLW(-BA))**

SKU	Color	Wording
A49CMTVC-WRFIRE	Red	FIRE
A49CMTVC-WWFIRE	White	
A49CMTVC-WRALT	Red	ALERT
A49CMTVC-WWALT	White	
A49CMTVC-WRS	Red	Logos Only
A49CMTVC-WWS	White	

**Table 4: Mounting Adapters**

SKU	Description	Dimensions
A4905-9937	Surface mount red adapter skirt	Use to cover 1-1/2" deep surface mounted boxes 5 3/8" H x 5 1/4" W x 1 5/8" D (136 mm x 133 mm x 41 mm) Total depth with horn = 3 1/8" (79 mm)
A4905-9940	Surface mount white adapter skirt	
A4905-9931	Adapter Plate, red, for mounting to Autocall 2975-9145 box (typically for retrofit, may be mounted vertical or horizontal)	8 5/16" x 5 3/4" x 0.060" Thick (211 mm x 146 mm x 1.5 mm)
2975-9145	Red mounting box, requires Adapter Plate A4905-9931	7 7/8" x 5 1/8" x 2 3/4" D (200 mm x 130 mm x 70 mm)

**Table 5: Synchronization Control Module**

SKU	Description	Dimensions
A4905-9938	SmartSync Control Module, Class A or Class B, installs in 4" square box; for use with control panels not providing SmartSync control	4" x 4 1/8" x 1 1/4" D (102 mm x 105 mm x 32 mm)

### Installation Reference

### Specifications

Table 6: General Specifications

Specification	Rating
Rated Voltage Range	16 VDC to 33 VDC, Special Application
NAC Loading	Maximum of 13, A49CMT Series appliances per NAC
Temperature Range	32° to 122° F (0° to 50° C)
Humidity Range	10% to 93%, non-condensing @ 104° F (40° C)
Connections	Terminal blocks on mounting plate for 18 AWG to 12 AWG (0.82 mm <sup>2</sup> to 3.31 mm <sup>2</sup> ); two wires per terminal for in/out wiring
Installation Instructions	579-1158AC for A49CMTV Series Horn/Strobes 579-1159AC for A49CMP Mounting Plates

Table 7: Tone Characteristics

Specification	Rating
<b>520 Hz Horn</b>	520 Hz tone
<b>Broadband Horn</b>	Combination 600/3000 Hz signal
<b>Bell</b>	Synthesized Bell tone
<b>High/Low</b>	Alternating modulated tones with fundamentals of 1000 Hz and 800 Hz, 250 ms duration each
<b>Slow Whoop</b>	Modulated 520 Hz to 1200 Hz sweep with 2 s duration
<b>Siren</b>	Modulated 600 Hz to 1200 Hz to 600 Hz sweep, with 2 s duration
<b>Chime</b>	Multi-phase signal with a peak and decay time of 1 s

Table 8: TrueAlert Multi-Tone Horn/Strobe Current Ratings

Tone	Current Ratings @ 16 VDC, in mA											
	15 cd		30 cd		75 cd		110 cd		135 cd		185 cd	
	High	Low	High	Low	High	Low	High	Low	High	Low	High	Low
520 Hz Horn and High/Low	207	161	220	177	281	236	329	288	367	321	438	392
Broadband Horn, Bell, Chime, Slow Whoop, and Siren	185	145	198	155	259	213	309	264	348	303	425	380

<b>Broadband Horn</b>		88		84†		87†		83†	
<b>Bell</b>		85		80†		85†		80†	
<b>Slow Whoop</b>		85		80†		these tones are not used for coded operation			
<b>Siren</b>		85		80†					
<b>Chime**</b>		82†		77†					

**Note:**

\* Output ratings are at 10 ft (3 m); UL 464 ratings are per UL Reverberant Chamber testing; ULC S525 ratings are per ULC Anechoic Chamber testing. The tone generator circuit is DC-DC converter powered and provides essentially constant output over the rated voltage range.

\*\* UL output ratings below 75 dBA are for NFPA 72 Private Mode applications.

† ULC output ratings below 85 dBA are for use in applications per applicable local codes.

**Table 11: Sound Output Dispersion per ULC S541 Anechoic Testing**

Specification	Rating		
<b>Horizontal</b>	-3 dBA @ ±37°	-6 dBA @ ±40°	-9.4 dBA @ ±90°
<b>Vertical</b>	-3 dBA @ -24°, +42°	-6 dBA @ -59°, +50°	-8.6 dBA @ ±90°
