

## EXPLOSION PROTECTION SERVICE TECHNICIAN

The Suppression System Incorporated, SSI, Explosion Protection Service Technician will inspect, test and repair various Explosion Protection Systems and equipment per NFPA guidelines. The ideal candidate is a detailed, analytical problem-solver who is motivated, hardworking and has a high aptitude for critical thinking tasks.

### **Position Summary**

- Perform preventative maintenance and repairs on a variety of Explosion Protection systems.
- Performs routine technical inspections and troubleshoot system problems with basic hand tools and troubleshooting equipment.
- Daily service duties will include working at different heights by implementing ladders and man lifts as well as working indoors and outdoors.
- Program and configure Explosion Protection Control Panels.
- Perform system rebuilds at end user facilities.
- Provide complete and accurate service reports for each piece of equipment serviced, with condition of equipment and any recommendations for repairs required.
- Communicate with manufacturer's technical support team to diagnose system problems.
- Respond to service requests in a timely fashion.
- Provide complete monthly counts of assigned inventory.
- Provide complete monthly expense reports.
- Evaluate customer sites for additional equipment and services SSI can offer.
- Cover a 24/7 on-call week that is rotated among all service technicians throughout the year.
- Maintain a professional appearance, attitude and relationship with customers and employees at all times.
- Keep assigned company vehicle clean, well maintained, and stocked with appropriate inventory levels.
- Overnight Travel as required.

### **Required:**

- High School Diploma or a General Educational Development Diploma (GED)
- Comfortable with heights and working on ladders and man lifts
- Excellent Communication skills.
- Ability to lift up to 50 lbs.
- Basic computer skills and knowledge of Microsoft Office Suite.
- Ability to pass required pre-employment drug screening, background check and satisfactory driving history.

### **Preferred:**

- Basic knowledge of low voltage electricity and mechanics.
- Basic knowledge of hands tool and troubleshooting equipment.
- Ability to read blueprints and design layouts.
- Associates degree in a related technical field or equivalent combination of education and experience.

SSI offers a generous compensation package and benefit package including:

- Full medical
- Dental and vision
- Life and disability
- Uniform Allowance
- On-Call Pay
- Company 401k retirement plan
- Paid Training
- Tuition Reimbursement
- Company vehicle
- And so much more!
